

Graph the following inequalities in a coordinate plane.

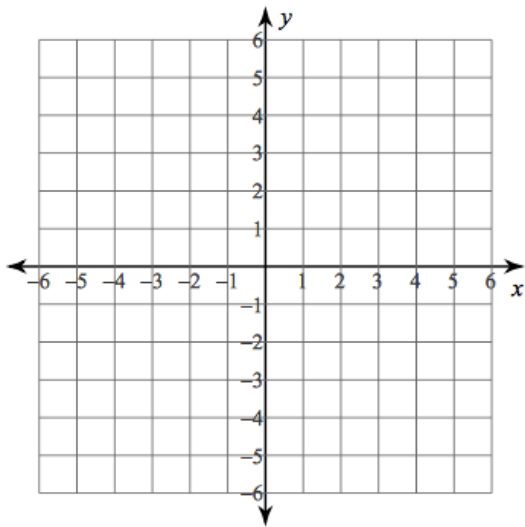

1)  $x + 4y > -12$

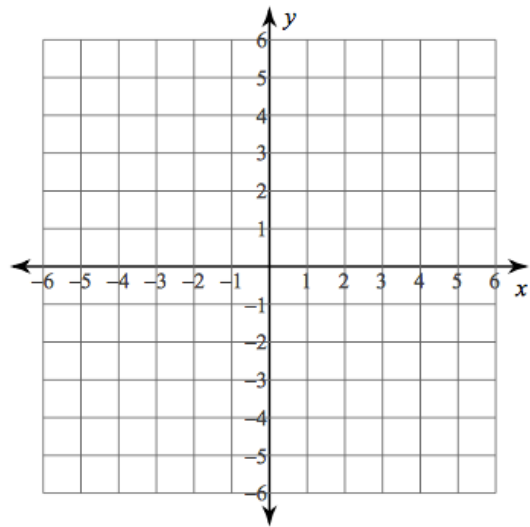

2)  $3x - y \geq 1$

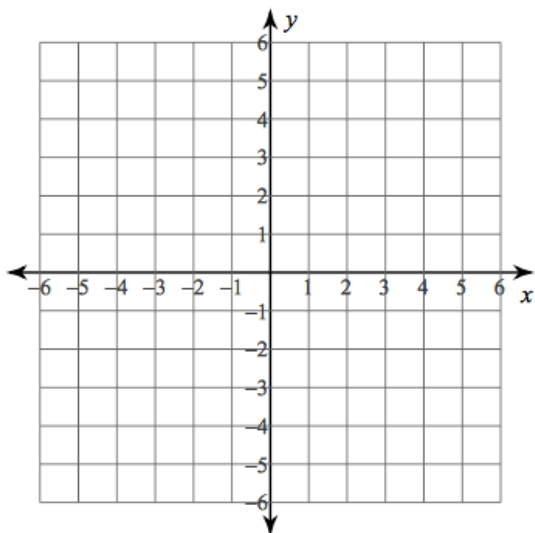

3)  $y > |x + 4|$

4)  $y \leq -|x - 1|$

5)  $y \geq -2|x + 2| + 4$

6)  $y < 3|x - 1| + 2$
